13 October 1958

MEMORANDUM FOR: Director, Photographic Intelligence Center

SUBJECT : New Color Photographic Process

REFERENCE : HTA/OC-175-58, 16 September 1958

25X1

25X1

So far as I am aware, I have heard nothing from you on the above subject since [] meeting with [] in California on 22 September. [] letter of 10 September makes this whole matter sound very intriguing, and I am interested to know how it stands. If in your judgment there is a real possibility of an important technical advance here, I would be glad to invest a modest sum in development work, especially if we could in this way exercise some degree of control over at least the initial military application and if our financing would make it possible for us in the national interest to surround this development with some security. If and when any contract is contemplated, I would of course wish to discuss with you and [] the best procedure to be used and the part that might be played, if any, by []
